

## The Darkness of Light

His passion for the written word has led to the publishing of this, his second book, *The Darkness of Light*. The poems focus primarily on the pain and pleasure experienced in the mind. Some focus on the dark side, others the light, some are a combination of both. You may have experienced some of the areas explored. The views expressed are just his views and are open to be interpreted as you see fit. There is no right or wrong way. His hope is that you enjoy them.
