

Sallys Extreme Summer

When Sally, a plucky 11-year-old American transplanted to London, answers a public phone on a sunny summer day she is whisked on a harrowing trip across the Mediterranean. She and her father are kidnapped as part of a generations-old blood feud and both will die unless a resourceful Arab boy, Sallys clever friend, Joanna, and an aging detective succeed in rescuing them. In the race against time, they are joined by a rag-tag band of warriors that includes a retired army commando officer, a jilted husband, a safecracker and an ex-university professor. As the fast-paced story unfolds, Sally and Joanna help uncover an international terrorist plot. They also find the everlasting value of honor and friendship.
