

Snap Jaw

At its feet the uneaten, severed, skeletal remains rest. Dont go into the lake, Snap Jaw waits. Thomas Mackeys longtime friends disappear after a party at this private beach front home. Investigations by Sheriff Kelly ensue, and Thomas finds himself trapped in a web of lies and deceit, unveiling a gigantic prehistoric monster. The body count rises. In our world mankind knows more about outer space than the depths of our lakes and oceans. Due to mans ignorance, terror has risen from deep and no one shall be safe, for Snap Jaw waits. This novel is based on history. In 1994, WWMT News Channel 3 reported the discovery of holes the size of a dump truck, made and left by prehistoric snapping turtles in VanAuken Lake that went out as far as Lake Michigan. Richard Blackstons grandfather saw this prehistoric reptile and spoke of it on many occasions.
