

## Wielder of the Void: The Elderspire Saga: Book 1

Within the realms outside Creation, all things are possible. It was there, within the Void, that the theft of the elements took place. It was there that true rage and hatred was born. Using the elements, Khaos forged Creation as an affront to the almighty Void. He created the world and the gods to oversee it. His actions allowed the forming of the Veil which forever segregated the Void from the realm of Creation. Now, aeons later, the reckoning of that betrayal can finally be realized. War is coming to the lands and the battle lines have been drawn. Fang Shiu Khan and his armies are amassing to attack; his opponents are a strained alliance of disparate lands both outmanned and ill-prepared. Worse yet, darker foes from outside Creation, more powerful and devious than the gods themselves, are conspiring to use the battlefield as a means to undo Creation. The survival of all hinges on the answer to a simple question and the fate of a single mortal soul. That soul will make allies. It will make enemies. It will control the destiny of Creation, should it choose to become the Wielder of the Void.
